

Dear Colleagues,

I want to remind everyone that we will be hosting our 4th annual free CALL conference on May 4th at Ohio University. We are looking forward to our guest speaker, Mathias Schulze. Dr Schulze's talk is titled "Complex Curves in CALL". We also have a number of concurrent sessions, hands on workshops and a technology fair.

The conference will take place from 9 AM-5 PM and will wrap up with a conference dinner at [Jackie O's Public House and Brewery](#). You can get more information, including the program by visiting our conference site: <https://sites.google.com/site/oucallconference/>

On the site you can also download an app guide to the conference for iOS, Android, Blackberry and Windows 7 devices. This app allows you to browse the schedule, access relevant maps, create your own customized schedule and much more.

We look forward to seeing you in May!

Best,
Greg
